Congratulations to The Old Carrabelle Hotel !

3rd Time Recipient of TripAdvisor's GreenLeader Award

The Old Carrabelle Hotel has successfully achieved **Gold level in the TripAdvisor GreenLeaders Program**. They will now get special recognition for their green practices on TripAdvisor, including a badge on their listing page, a badge in traveler search results, and a framed certificate.

TripAdvisor also awarded The Old Carrabelle Hotel their Certificate of Excellence in 2013, 2014, and also in 2015. This achievement was a direct result of their consistently great reviews from TripAdvisor travelers.

The Hotel, situated one block off Carrabelle harbor, was started in 2001 by Skip and Kathy Frink. They have enjoyed a steadily increasing business volume of travelers from all over the world. Says Skip, "Of course, the internet is the tool that allowed us to get on the world map in the first place. We aren't even on the main highway, but our increased contact with TripAdvisor, and its devotee travelers, has taken us on a quantum leap."

On February 9, 2016, The Old Carrabelle Hotel generously offered a warm room to Ari Ramos. Miss Ramos is running across America to raise awareness about the problem of childhood obesity. She began her journey in Jacksonville, FL, a week previously and had been primitive camping at night. A warm room and a hot shower was greatly appreciated. (We had temps in the 30's with a wind chill factor in the 20's that night!)

NOW YOU SEE IT, NOW YOU DON'T-THE CAPSIZED VESSEL THAT WAS!

Back in October, 2014 Mr. Rob Powis of Carrabelle undertook a long & complicated project to remove the unsightly capsized vessel in the Carrabelle River. His endeavors included meeting with several government entities for approval; securing legal documentation, authorizations, & agreements; hiring an experienced underwater diver & assistant to complete the actual work; organizing disposal of the waterlogged & barnacle-covered boat; and obtaining funding for the project. Rob volunteered countless hours coordinating & overseeing this project. The Waterfront Partnership Group volunteered administrative services for the project. Legal services were donated. In-kind services for disposal were donated. During the actual retrieval process, a trade of favors was negotiated by the crew hired to remove the boat & the crew operating the barge that happened to be nearby, carrying a truck with crane. Without charge, the truck & crane were used to assist with up righting the capsized vessel, allowing it to be towed to a boat ramp & moved onto dry land. Thank you, Rob, for your diligent & dedicated efforts in following this difficult project through to the end. As well, the contribution of services & teamwork by all those involved to help keep our Carrabelle River beautiful is truly appreciated. Donations to assist with vessel removal cost will be accepted by Carrabelle Waterfront Partnership.
